PARTNER SUBSCRIPTION PLAN

A Simple Guide | Commission vs. Subscription

Which model is more beneficial for you?

Our platform offers a 7-day commission-based trial. After the trial, you can choose a monthly subscription. Here is a simple comparison of both options.

OPTION 1: Commission-Based Model

- A 25% commission applies to each confirmed service, according to the agreed terms.
- The higher your service value, the more commission you may need to pay.
- Commission must be calculated and paid according to the applicable terms for each service.
- If your monthly business volume is high, your total commission costs can increase significantly.

OPTION 2: Monthly Subscription Model

Subscription fee: Rs. 6,000 per month + 18% GST = Rs. 7,080 total.
The base fee averages Rs. 200 per day, excluding GST. While your subscription is active, you pay zero service commission.

- Keep 100% of your service earnings without paying additional service commission.
- Instead of paying 25% commission on every service, pay a fixed monthly subscription fee.
- Plan your monthly platform expense and estimate your earnings more easily.
- Receive eligible leads under the plan, subject to subscription terms and lead availability.

Example: If you complete Rs. 40,000 worth of services in a month

Details	**Commission Model**	**Subscription Model**
Monthly service value	Rs. 40,000	Rs. 40,000
Platform fee	25% = Rs. 10,000	Rs. 7,080 incl. GST
Amount remaining after platform fee	**Rs. 30,000**	**Rs. 32,920**
Difference	**—**	**Rs. 2,920 more***

**This example is for comparison only. Technician labour, materials, travel, taxes and other business expenses are not included. Commission will be calculated according to the agreed terms.*

Break-Even: When can the subscription be more beneficial?

If the 25% commission is calculated on completed service value, a monthly service value of Rs. 28,320 results in Rs. 7,080 commission. Above this level, the subscription may cost less when comparing platform fees alone. Below this level, the commission model may be cheaper. Your actual benefit depends on your monthly completed work.

Key Subscription Benefits

- Zero service commission while your subscription is active.
- Fixed monthly platform fee: Rs. 6,000 + GST.
- An opportunity to retain more of your service income.
- Access to eligible leads and an opportunity to grow your business, subject to lead availability and plan terms.

Free Trial and Important Terms

A 7-day commission-based trial is available. During the trial, a 25% commission applies to each confirmed service according to the agreed terms. After the trial ends, you must activate a paid subscription to continue receiving leads, as per platform policy. The exact number of leads, conversions, bookings and earnings is not guaranteed; results depend on location, service category, demand and partner response.

Our goal: To provide relevant service leads, help you grow your business, and give you the flexibility to choose the option that suits you best—commission-based work or a fixed monthly subscription.
